

Southmont Schools eLearning Day Tips for Students

Students | 2019-2020

Before an eLearning Day

- Save and share teacher and tech contact information with parents
- Make sure that you know how to log into and access your Google Classrooms
 - If not, ask a teacher for help
- Make sure you know how to use the digital communication tools your teachers will be using during an eLearning

During an eLearning Day

Before Learning

- Log into your teacher's Google Classroom around 10:00 AM to get directions and lessons for the day
- Make sure you have the information about when your teacher will be available for questions
- If you do not have power or can't complete the work on the eLearning, you will have an appropriate amount of time to make up the work (as determined at the building level)

During Learning

- Do your best
- Take breaks throughout the day, just like you would if you were learning in the school building
- If you have questions or need help reach out to your teacher(s)

After Learning

- Make sure that your work is completed by the due date
- If you didn't have internet access during the eLearning day and weren't able to complete the work on the specific day you can schedule time to work with your teacher to make-up the work within the given make-up period

Additional Assistance

Questions, problems, or accessibility issues with instruction for the day

- Please reach out to your teachers if you have any questions, problems, or accessibility with the content of the lessons that the he/she is asking you to complete for the eLearning

Questions, problems, or accessibility issues with technology

- If you are experiencing technical issues please reach out to tech support
 - Call your school, describe the issue you are having and ask for tech support and you will be directed to the most appropriate staff member for assistance
